

# Colour and make— after Maya Temple II Tikal

Post pictures of your finished model on our Facebook page : Puku B living history or find us on Instagram

- Cut along these lines
- - - - - Fold along these lines

Cut around the solid lines then fold the dashed lines to make stairs.

Glue the tabs to their matching stair, start in the middle and work out

*Tip: if you don't want to see the printed lines in your final model, colour the other side and fold them so that they are on the inside.*
